

STEPS to Maintaining a Continuum of Breast Health Services on the Mid-Shore

The Shore Regional Breast Center, a service of Shore Health System of Maryland's Regional Cancer Center in Easton, Maryland, is working with the Maryland Affiliate of Susan G. Komen for the Cure, to improve breast health services to medically underserved and minority women living in the Mid-Shore Region of Maryland.

PROGRAM GOALS CONTINUE TO INCLUDE:

- To improve access to breast cancer screening, diagnosis and treatment to medically underserved women and women who do not qualify for the State of Maryland's Breast and Cervical Cancer Screening Program (BCCP).
- To provide breast cancer screening, diagnosis, and treatment to medically underserved women who would ordinarily not access these services.
- To increase the number of Latina women utilizing breast screening services.
- To provide case management to qualified women receiving breast cancer screening, diagnosis and treatment.
